

Work Tolerance Assessments

Protect your workforce. Promote safe return to work.

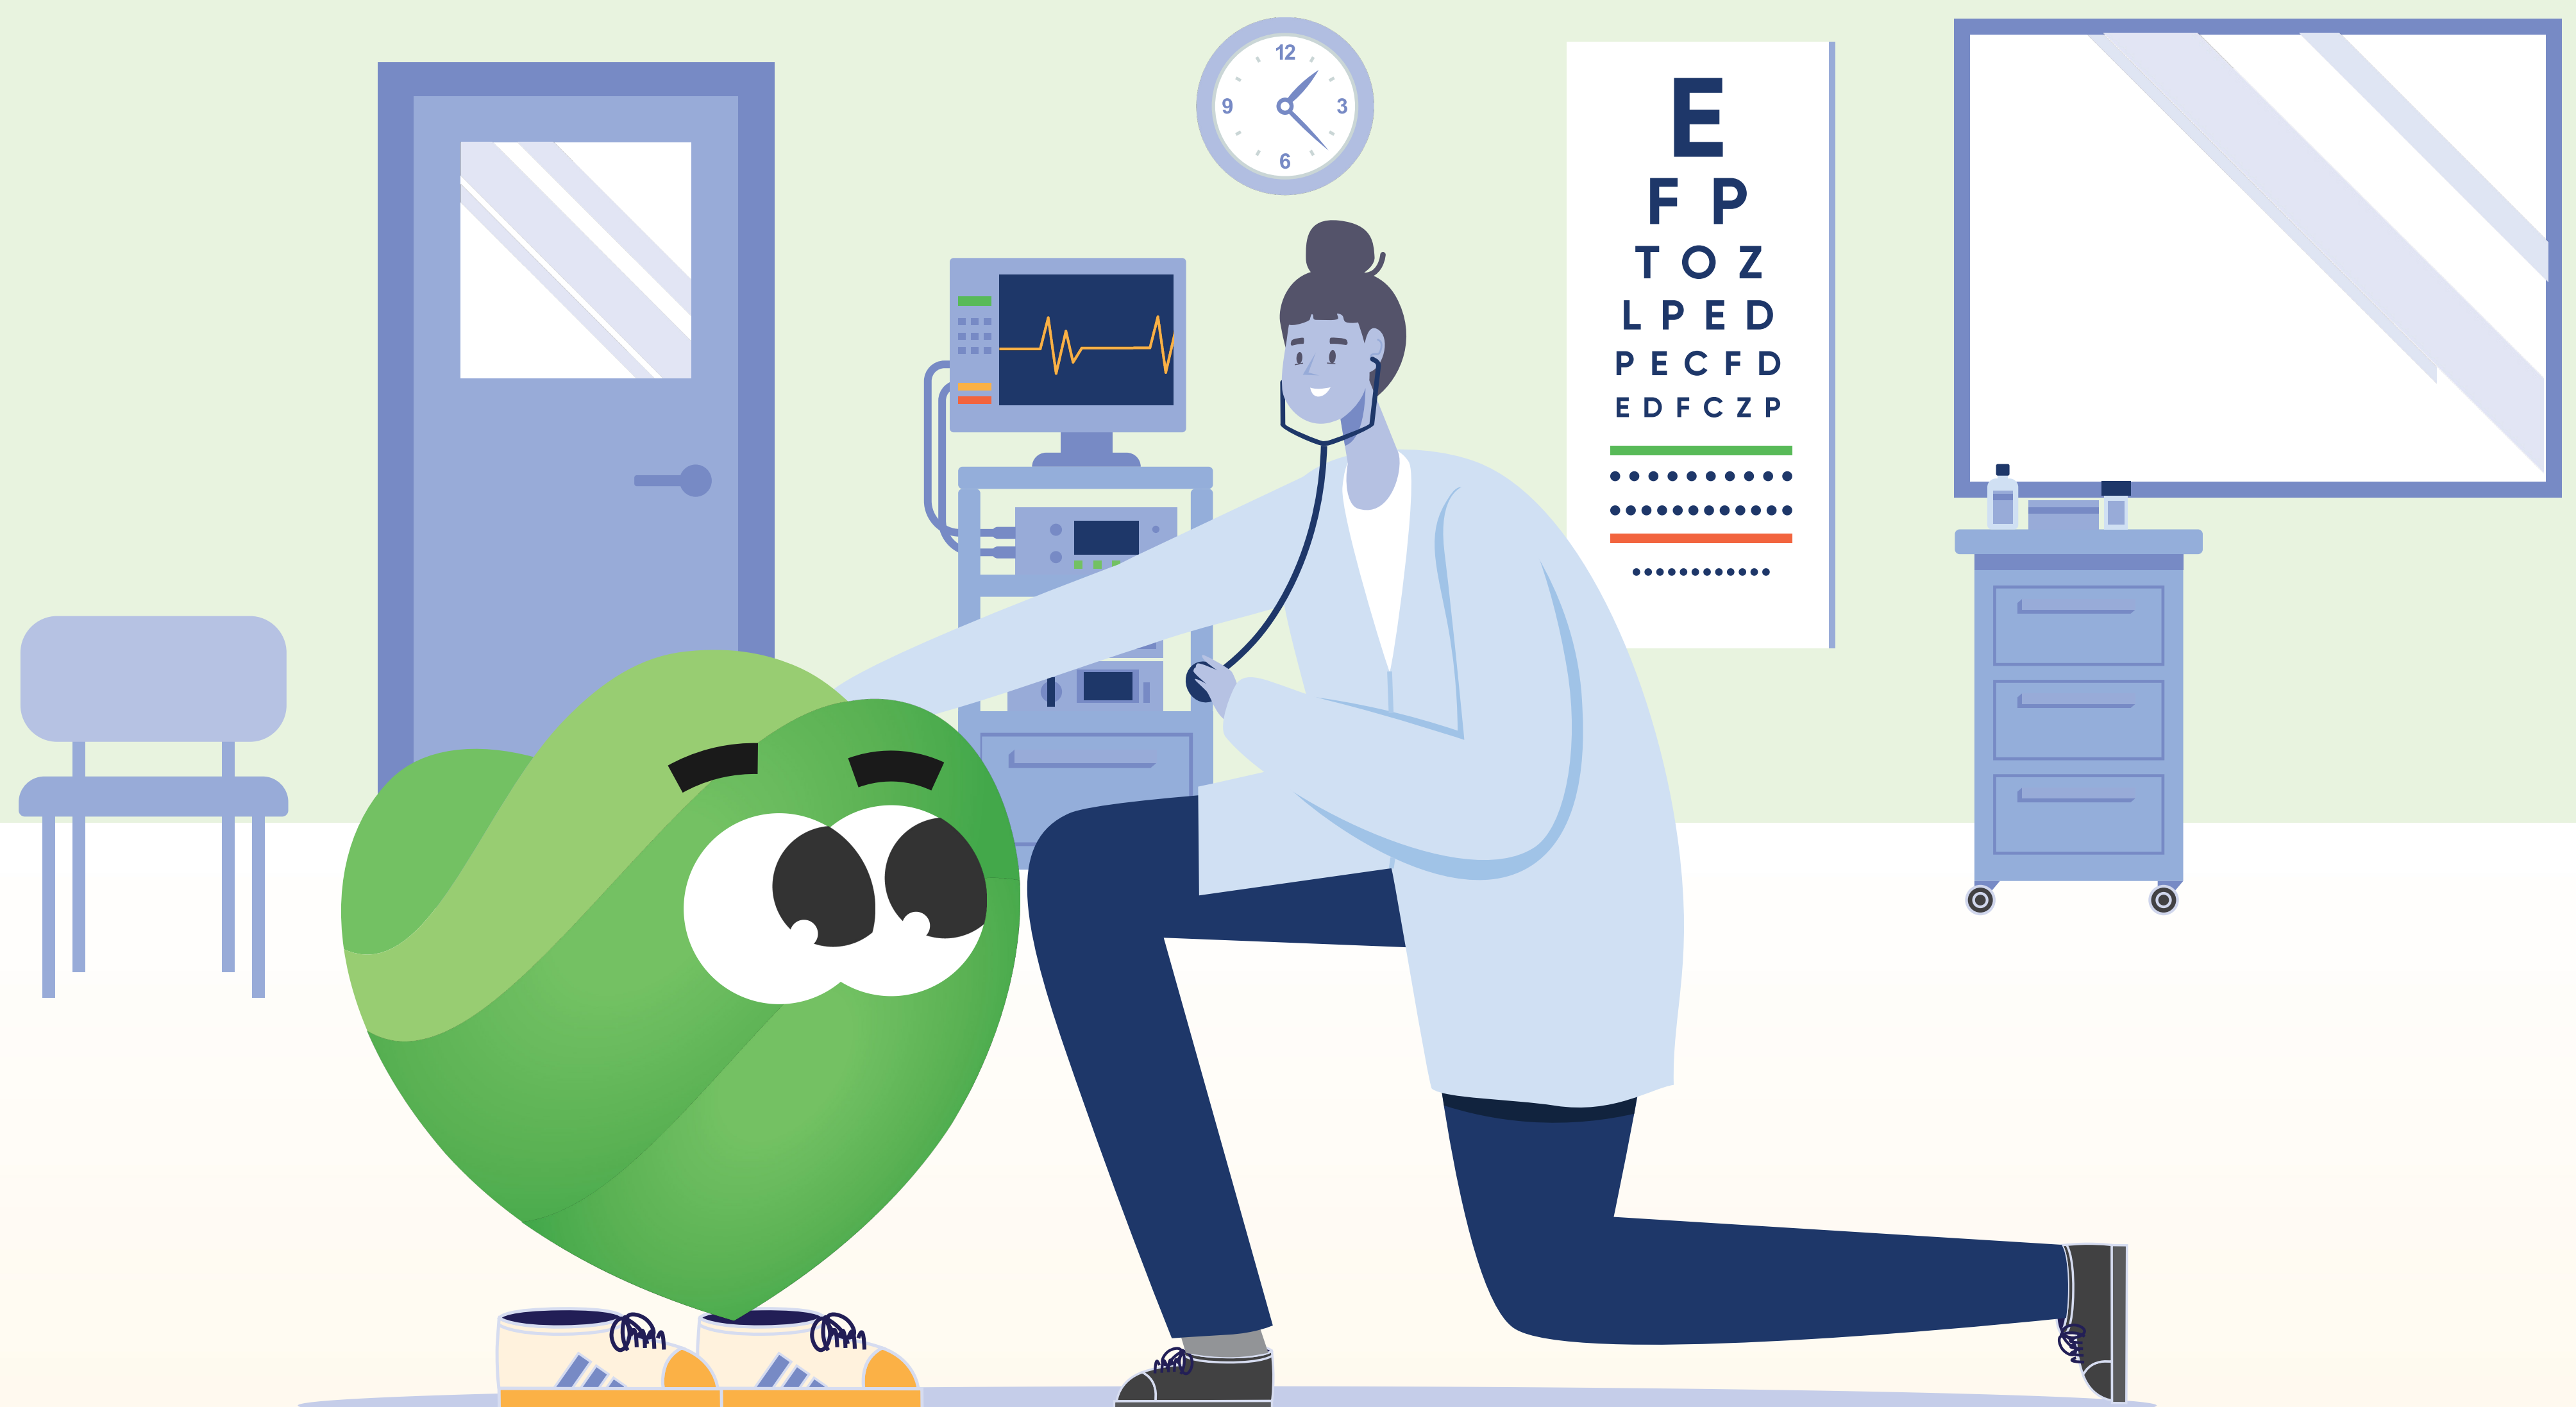

What's included?

- Musculoskeletal screening
- Manual handling & postural tolerance tests
- Job-specific capacity assessments (lifting, endurance, repetitive tasks)
- Functional analysis aligned to workplace tasks

How does it benefit you?

- Supports safe and sustainable return-to-work
- Objective, defensible functional reporting
- Reduces risk of re-injury and compensation claims
- Enhances worker wellbeing and productivity
- Demonstrates commitment to WHS compliance

In-clinic assessments
Monday to Friday 8:00am – 4:30pm.
Modified on-site assessments
available if required.
